

PERFORMANCE — SWITZERLAND

**Spring/Summer** 2021

saucony | run for good

## A new dawn

Rooted in the optimism and discovery that come with a new day, Saucony brings an energetic, bright future to the new year. Spring 2021 footwear and apparel is an electrifying lineup of advanced technology and forward-thinking design, to show you just how bright the future can be when you run with us.

ENDORPHIN SPEED

SAUCONY

## **Tried and true.**

For over a century, we've been pushing the pace with equal parts passion and precision - always packed with pure performance for the goodness of the run ahead. Whether you're just starting out or loyal to the sport, we know one thing holds true - one good run leads to another.

# Endorphin<sup>PRO</sup>

## You, but faster.

For athletes looking for a performance advantage over the competition, the carbon-plated Endorphin<sup>Pro</sup> makes magic happen on race day by rewriting what the fastest times should feel like.

## 3 good things to know

### Fastest to the finish

New ultralight PeBa®-based **PWRRUN PB** cushioning and a full-length carbon fiber plate takes energy efficiency to new heights. The reduction in fatigue means running at top speed feels easier, so you get to the finish line faster.

### Roll to a new PR

The **SPEEDROLL**, an always-forward geometry, creates a lively rolling feel underfoot. It's a propulsive ride that's unique to Saucony—feeling instantly responsive and natural at the same time.

### Race-day light

Inspired by track spikes, the **FORMFIT** of this shoe uses hyperlight, ultra-thin engineered materials to ensure you have only what you need to be at your best.

# Endorphin<sup>SPEED</sup>

## Roll forward, faster.

For athletes looking for a performance advantage on every run, the Endorphin<sup>Speed</sup> makes running fast feel easier by proving that a cushioned shoe can deliver speed and a natural feel at the same time.

## 3 good things to know

### Energy for forever fast

New ultralight PeBa<sup>®</sup>-based **PWRRUN PB** cushioning takes energy efficiency to new heights. The reduction in fatigue means running at top speed feels easier, so you get to the finish line faster.

### Soft with more snap

The **SPEEDROLL**, an always-forward geometry, creates a lively rolling feel underfoot. It's a propulsive ride that's unique to Saucony—feeling instantly responsive and natural at the same time.

### Light but loaded comfort

**FORMFIT** ensures a locked-in fit that's light on foot with breathable engineered mesh and 3D-printed structure where needed most.

# Endorphin<sup>SHIFT</sup>

## Max cushioning. Full speed.

For those looking to give their body a break, the Endorphin<sup>Shift</sup> takes a new approach to make any run feel easier by reducing the stress on the feet and treating them to lots of feel-good cushioning.

## 3 good things to know

### Feels refreshingly plush

More **PWRRUN** cushioning underfoot provides just-right softness that feels forgiving without feeling squishy.

### Let the good times roll

The **SPEEDROLL**, an always-forward geometry, creates a lively rolling feel underfoot. It's a propulsive ride that's unique to Saucony—feeling instantly responsive and natural at the same time.

### Structured for comfort

A **TPU** heel counter works in unison with the medial rubber wrap to create structural support in a lightweight form to adapt to a variety of foot types.

# Triumph<sup>18</sup>

## Win the day.

For those who crave the ultimate in protective cushioning, the Triumph<sup>18</sup>, our most cushioned shoe, has been retooled to give long runs a new faster feel with all the luxurious comfort you desire.

## 3 good things to know

### More springy-cloud feeling

**PWRRUN+**, the next generation of amazing cushioning, gives you a luxurious underfoot feel that won't break down—now 25% lighter than before.

### Soft with more snap

New midsole geometries coupled with a new, durable rubber outsole make the cushy ride of this shoe feel faster.

### More luxury on foot

**FORMFIT** acts like a luxurious bucket seat for your foot, with even softer materials than ever before.

# Guide<sup>14</sup>

## Confident strides forward

Guiding your every mile, it's pure performance in a shoe you'll be wearing past your workout. The look is clean, the ride is so smooth - you'll be confident with every stride forward.

### 3 good things to know

#### Eye-opening comfort

Newly formulated **PWRRUN** foam packs in more responsiveness with a softer feel than most other EVA formulations, so it delivers a livelier sensation than what stability-seeking runners are accustomed to.

#### Flawless stability

The tonal medial **TPU guidance frame** and 3D-engineered fascia in the upper both help deliver 360 degrees of stability while disappearing into the design of the shoe for a clean overall look.

#### Distraction-free fit

**FORMFIT** addresses the collective constructions that help our shoes wrap and fit around your entire foot, and the Guide 14 has been streamlined to achieve more comfort with less bulk. Runners will primarily notice this in the enhanced heel fit and a generally lighter feel on foot.

# Omni<sup>19</sup>

## Streamlined support with surprising spring.

For those who need support, the Omni<sup>19</sup> delivers miles of comfortable running with added stability, a generous fit, and more spring than you'd expect from a shoe this supportive.

## 3 good things to know

### More feel-good cushioning

New **PWRRUN** cushioning provides just-right softness and a springy, more responsive feel than you'd expect from a shoe this supportive.

### Feels comfortably stable

The extended medial post in the midsole complements a generous platform to promote proper body alignment with each step. Plus, a newly designed internal heel counter wraps around the heel for enhanced control.

### An upgraded fit

The **FORMFIT** construction utilizes new materials to achieve a comfortable and secure feel with a modern, streamlined appearance.

# Ride<sup>13</sup>

## Enjoy the ride.

For those who crave reliable comfort on any run, the Ride<sup>13</sup> keeps paving the way to smooth miles with even softer cushioning and a new streamlined fit.

## 3 good things to know

### More feel-good cushioning

New **PWRRUN** cushioning provides just-right softness that's responsive enough to tackle as many miles as you wish.

### More smooth miles

The increased durability of the blown rubber outsole means more smooth miles. Plus, it provides added cushioning at a lighter weight.

### Fit for all

The clean look of the new **FORMFIT** construction combines a breathable engineered mesh with 3D printed overlays for a fit that accommodates a wide range of foot shapes comfortably.

# Ride<sup>14</sup>

## Ready for a revolution?

The evolution of the reliable Ride<sup>14</sup> combines the comfort and cushioning you'd expect with a new bolder, faster design you'll want to wear well past the run.

## 3 good things to know

### Consistently good cushioning

**PWRRUN** cushioning continues to provide just the right amount of softness, yet responsive enough to tackle as many miles as you wish.

### Bolder and faster

Inspired by wear testing and consumer feedback, the updated shape and handcrafted feel deliver a sleek, secure profile that's faster and more dynamic than before.

### Slipper-like fit

The clean look of **FORMFIT** combines a new and improved engineered mesh to optimize breathability with a lighter, thinner internal construction for a comfortable and custom fit.

# Echelon<sup>8</sup>

## A feel-good ride that accommodates all who run.

For those who need a protective shoe that meets a wide-range of needs, the generous and accommodating Echelon<sup>8</sup> welcomes them with feel-good cushioning, a balanced and stable ride, and a secure fit.

## 3 good things to know

### More feel-good cushioning

New **PWRRUN** cushioning provides just-right softness and a springy, more responsive feel for endless miles of comfort.

### Stable as ever

The shoe's solid foundation feels even more stable thanks to a new lightweight midfoot support panel.

### Generous and secure fit

Those with orthotics, or flat and voluminous feet find comfort in the spacious **FORMFIT** construction, made even more secure with a new 3D heel counter.

# Kinvara<sup>12</sup>

## Light speeds ahead.

The Kinvara<sup>12</sup> is our trusted go-fast trainer, further refined to make the most of less. Made lighter with a simplified upper, the ride feels as fast as ever—with the flex needed to get you to the start line stronger and the finish line sooner.

## 3 good things to know

### Feels light and fast

**PWRRUN** cushioning maintains the lightweight responsiveness that makes this shoe a favorite for daily training miles or racing longer distances.

### More aggressive handling

The addition of more ground contact adds power to the flexible ride, making the transition from landing to takeoff even faster.

### Stripped-down comfort

Lightweight printing gives just enough structure to the breathable, adaptable mesh upper to feel secure without weighing you down.

- 20 Peregrine
- 23 Mad River TR
- 24 Excursion TR

# Xodus<sup>11</sup>

## We've reached a new peak.

Get out and stay out in our most cushioned trail shoe that's ready for long days on rugged terrain. An aggressive lug pattern and PWRTRAC rubber outsole ensure great grip, while PWRRUN+ cushioning lends a full-suspension ride over as many miles as you can cover. Lace up and test your limits in the Xodus 11.

## 3 good things to know

### Unending grip

Aggressive, multi-directional 5mm lugs combine with **PWRTRAC** rubber to give you the control and traction to confidently tackle any terrain.

### Full-suspension feel

Run longer and more comfortably with energizing **PWRRUN+** cushioning and the protection of a rock plate underfoot.

### Durable and breathable

The new durable engineered mesh upper allows you to run longer with greater comfort.

# Peregrine<sup>11</sup>

## Good to go. Anywhere.

Feel the speed and grip of the always-capable Peregrine<sup>11</sup>. Built on a trusted foundation of PWRTRAC rubber lugs and PWRRUN cushioning, it delivers a ride that feels both aggressive and responsive. And with an even more protective upper than before, it's packed with everything you need to move fast over any type of rugged terrain.

## 3 good things to know

### Grip that won't slip

Aggressive lugs made of PWRTRAC tacky rubber conform to dig in and confidently grip a wide variety of terrains.

### Feels rock steady

PWRRUN cushioning supplies a responsive feel while a rock plate ensures additional protection for pushing uphill and driving downhill with confidence.

### Durable speed

The new ultralight, durable top layer adds durability to the comfortable air mesh bootie so nothing snags your speed.

# Peregrine<sup>11</sup> ST

## Go off trail. Not off speed.

When the ground gets soft, the Peregrine<sup>11</sup> ST goes hard. Taking the responsive feel of our most versatile trail shoe, this specialized version comes equipped with deeper lugs, spaced out to dig in and shed mud fast. Plus, the upper is reinforced to keep dirt and debris out, so you can focus on the adventure ahead.

### 3 good things to know

#### Dig-deep traction

Deeper multi-directional **PWRTRAC** lugs give the ultimate grip, specifically made to handle wet, muddy terrain.

#### Feels rock steady

**PWRRUN** cushioning provides a responsive feel while a rock plate ensures additional protection for pushing uphill and driving downhill with confidence.

#### Keeps debris out

The debris-resistant upper is reinforced with 3D-printed overlays and a mesh shield over the tongue for ample protection.

# Excursion TR<sup>14</sup> GTX<sup>®</sup>

## Be left high and dry.

This trail running shoe sports all of the great benefits of the Excursion<sup>TR14</sup>, but with a GORE-TEX<sup>®</sup> membrane that ensures breathable, waterproof protection. So while the weatherman may call for rain, the forecast for your feet will be “dry with a guarantee of happiness”.

## 3 good things to know

### Rugged outsole

Grippy lugs on the outsole are made with carbon rubber for rock-solid footings.

### Versatile cushioning

A moderate stack **VERSARUN** cushioning packs plenty of underfoot comfort no matter the destination.

### Durable protection

The trail-specific mesh with supportive overlays locks your foot into place and protects from debris without looking or feeling bulky. The **GORE-TEX<sup>®</sup>** edition is waterproof but breathes.

No matter where you hit the ground running, the Peregrine Shield will adapt to the ground you're on. Added Run Shield technology that keeps kids feet dry.

- RUNSHIELD water-resistant technology
- Anti-microbial lining
- Compression moulded EVA
- Non-marking rubber

# Technology Glossary

## COMFORT LITE SOCKLINER

Molded sockliner contoured to cradle the heel, support the arch and reduce peak pressures in the forefoot. Built from premium EVA for an exceptionally responsive feel.

## EVERUN

A super-resilient cushioning made up of tiny beads of PU foam that's naturally flexible, huge on energy return, and inherently durable for a consistent feel from step one to a million and one.

## FLEXFILM

Lightweight yet strong material allows for fewer layers in the upper for a seamless, flexible feel.

## FORMFIT

Our exclusive 3D approach to fit that feels personalized through the use of an underfoot cradle construction that is topped with cushioning that shapes to you, plus upper materials that flex, stretch, and protect.

## FOUNDATION PLATFORM

Provides a highly versatile, accommodating fit and feel designed to maximize comfort and support. Specifically designed for compatibility with orthotics or shoe inserts.

## GRID

Offers stable cushioning in the heel.

## IBR+

33% lighter and provides more cushioning compared to standard blown rubber.

## ISOFIBER

A lightweight structure system integrated into the upper around the heel and midfoot for lightweight support and hold.

## ISOKNIT

The great sock-like fit of ISOFIT combined with an engineered knit textile to give you support, breathability and flexibility in all the right places.

## ISOFIT

A soft inner sleeve and floating support cage combine to create a dynamic fit system that adapts to the shape and motion of your foot.

## OFFSET

Heel-to-toe differential of the shoe, inclusive of the midsole and outsole measurements.

## POWERGRID

PWRFOAM material is integrated with GRID technology to create a system that effectively centers the foot, absorbs impact and distributes pressure, resulting in an exceptionally smooth and responsive ride.

## PROGRID

More responsive than EVA, PROGRID provides incredible cushioning in a lightweight package.

## PRO-LOCK

Supportive straps on either side of the midfoot that encase the foot and lock it to the platform.

## PWRGRID+

PWRGRID+ platform is over 20% more cushioned and 15% more resilient than a standard POWERGRID construction, providing a plush feel, responsive ride, and superior impact protection.

## PWRFOAM

An EVA-based cushioning that provides durability, resiliency and responsiveness.

## PWRRUN+

The latest breakthrough in PU-based cushioning that is formulated at a lower density to increase the softness and decrease the weight of the super-resilient cushioning. It gives you the best in all six aspects of cushioning—impact absorption, stride response, pressure reduction, energy return, durability, and weight.

## PWRRUNPB

PWRRUNPB is Saucony's premiere cushioning material. A beaded foam made from a proprietary blend of PEBA polymers, PWRRUN PB is the weight of EVA and exceptionally bouncy (88% energy return). It also is very consistent across a wide range of temperatures, and dramatically more durable than EVA.

## PWRRUN

The latest upgrade in EVA-based cushioning that provides even more energy-return rebound and durability than previous formulations.

## PWRTRAC

Tacky, durable rubber providing exceptional traction and abrasion resistance. Compound has a Coefficient of Friction (COF) that is 3x that of normal carbon rubber.

## RUNDRY

Collar lining material combines superior moisture wicking properties with a plush feel for comfort.

## REACT2U

Ultra-plush memory foam footbed for ultimate cushioning.

## REACT2U+

Fabric-less memory foam footbed for a more responsive feel and step in comfort.

## SAUC-FIT

Supports the medial arch and provides a snug, secure fit.

## SRC

Super Rebound Compound provides durable shock absorption in the heel crashpad to help reduce torque and allow for a smooth transition into the midfoot.

## SSL

Saucony Super Lite EVA blend that maximizes rebound and durability while minimizing weight.

## SUPPORT FRAME

Molded support locks the heel in place for a secure, stable fit.

## TRI-FLEX

Our TRI-FLEX outsole works to increase force dispersion over a greater surface area while also delivering optimal flexibility and traction.

## VERSAFOAM

A durable EVA-based cushioning that has been tuned for a responsive ride.

## VERSARUN

An incredible value-oriented EVA-based cushioning that feels responsive and has the durability required to hold up to a variety of activities.

## XT-900

Premium carbon rubber outsole material that offers exceptional traction and high-wear properties.

## XT-600

Carbon rubber outsole material that offers exceptional abrasion and traction properties.

# Support good habits.

Many runners find that they need their footwear to help them maintain a comfortable alignment. For those runners we build shoes with added structure to help reduce the joint torques that overstress their bodies. A runner's individual body and stride dynamics determine how much added structure they need from their shoes. The level of support is determined by the balance between lateral and medial constructions.

## Landing Zone: Torque Reduction

Lateral point of contact engineered to decrease twisting force around ankle joints generated by foot strike.

## Medial Structure Zone: Torque Resistance

Stiffer medial construction counters inward rotation force generated by lateral heel strike.

## Midfoot Torsional Flexibility

Allows foot to roll to ground with a smooth natural motion rather than slapping down.

# Good from all angles.

We've expanded FORMFIT to extend beyond an underfoot cradle to provide better adaptability to your foot from every touchpoint. It's the sum of a host of craftsmanship techniques—like 3D Printed overlays, soft engineered mesh, and contoured heel collars—that conform to you for a made-for-me-feel. The end-result is comfort that disappears on foot, so you stay focused on the distance ahead.
