GLOSSARY

FORMFIT

360-degree approach to fit that ensures a secure, customized feel from top to bottom. Combines an underfoot cradle construction with soft cushioning, higher side walls, and flexible upper materials that mold to the shape of your foot.

FOUNDATION PLATFORM

Provides a highly versatile, accommodating fit and feel designed to maximize comfort and support. Specifically designed for compatibility with orthotics or shoe inserts.

GEOMETRY

Everything from the curve of a midsole to its strategic offset, flex grooves and more. All the engineering that adds up to an effortless ride.

HOLLOW-TECH FRAME

A lightweight, minimal TPU support structure that guides your stride without added bulk.

PWRRUN+

With a soft underfoot feel, this foam midsole is light, springy, and provides just the right amount of comfort.

PWRTRAC

Trail-specific outsole rubber that gives you exceptional traction and grip with the durability to withstand rough terrain.

OFFSET

Heel-to-toe differential of the shoe, inclusive of the midsole and outsole measurements.

PWRRUN

Plush and durable cushioning that puts comfort above all else.

PWRRUN FRAME

Works in tandem with a high-cushion core to support and power the stride.

PWRRUN HG

The more energy you give, the more energy you get. Soft and lightweight cushioning that won't quit on race day.

PWRRUN PB

Where high performance meets exceptional energy return. Lightweight cushioning that is designed to go fast.

SPEEDROLL

A blend of max cushioning and speed geometry that fuels you with non-stop momentum, so you can run faster, not harder.

VERSARUN

Durable EVA-based cushioning that feels responsive and performs across all kinds of activities.
